RICHARD FRINIER COLLECTION

The brand's latest collaboration with celebrated designer, Richard Frinier, was inspired by his interest in grounding, the restorative practice of rebalancing one's internal energy through connecting with the earth. Featuring 6 patterns and nearly 40 skus, each design presents a different interpretation of the energy and natural rhythms present in the ground beneath our feet. This collection incorporates recycled Sunbrella solution-dyed acrylic yarns which present flecks and natural yarn variations to the face of the fabric providing an artisanal aesthetic and creating a meaningful, visual connection to its reclaimed composition.

Sunbrella ReCycled

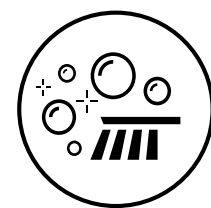

Woven with recycled content, designed to last

Each fabric in this collection is made with at least 20% recycled content, offering an array of beautiful, lasting fabrics all with the trusted performance of Sunbrella.

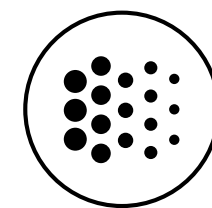

Recycled Solution-Dyed Acrylic

Made with repurposed Sunbrella fibers from leftover material captured in the manufacturing process, our recycled acrylic yarn displays slight variations and color flecks throughout, adding to the unique character of the product.

Most Comprehensive Warranty in the Industry

RECYCLED ACRYLIC

Sunbrella ReCycled fabrics that include only acrylic and/or an acrylic blend and less than 10% polyester carry a 5-year limited warranty for indoor and outdoor applications. See sunbrella.com/warranty for more information.

Recycle my Sunbrella

You and your customers can make a difference by recycling any Sunbrella fabric through our Recycle My Sunbrella program, helping keep waste out of landfills and contributing to a circular economy.

ACT Performance Standards

Certain Sunbrella® fabrics meet specific ACT Voluntary Performance Guidelines, as indicated with the following certifications:

Abrasion – High Traffic

30,000 to 100,000 double rub Wyzenbeek abrasion rating.

a Abrasion – High Traffic

30,000 to 100,000 double rub Wyzenbeek abrasion rating.

Flammability

Passes California Technical Bulletin 117-2013 Section 1.

Wet & Dry Crocking

AATCC 8 with Grade 3 minimum for Wet Crocking and Grade 4 minimum for Dry Crocking.

Colorfastness to Light

AATCC 16 Option 1 or 3 test approval and meets Grade 4 minimum at 40 hours.

Physical Properties

Pilling – Meets ASTM D3511 (Brush Pill), Class 3 minimum;
 Breaking Strength – Meets ASTM D5034 (Grab Test), 50 lbs. minimum in warp and weft;
 Seam Slippage – Meets ASTM D4034, 25 lbs. minimum in warp and weft.
